• CORE CRM PLATFORMS WE SETUP, MANAGE & AUTOMATE

Salesforce Sales Cloud

Enterprise CRM

Custom Sales Cloud architecture, lead assignment rules, flow automations, and custom Apex reports.

- Custom lead routing & territory mapping
- Opportunity stage & sales pipeline optimization
- Pardot & Marketing Cloud alignment
- Executive dashboard & forecasting views

HubSpot CRM Suite

Growth & Inbound

End-to-end setup across Sales Hub, Marketing Hub, Service Hub, and custom API webhooks.

- Lead scoring & lifecycle stage configuration
- Automated email sequences & deal workflows
- Custom form creation & lead capture integration
- Revenue attribution & campaign tracking

Zoho CRM / One Suite

All-in-One Business

Deluge scripting, custom module development, and Blueprint process automation for end-to-end management.

- Blueprint sales process execution
- Zoho Desk, Books & Campaigns integrations
- Deluge custom function scripting
- Custom layout & validation rules

Monday.com Sales CRM

Visual Workflow

Transforming project management boards into dynamic B2B sales pipelines and task management hubs.

- Visual deal tracking & status automations
- Custom email integration & activity tracking
- Client onboarding & handoff board setups
- Cross-board mirror columns & KPI dashboards

Pipedrive CRM

Sales-Focused

High-velocity sales pipeline design, activity-based selling routines, and lead booster webform triggers.

- Multi-stage pipeline customization
- Automated follow-up task generation
- Web Visitors & LeadBooster setup
- Goal tracking & sales rep performance analytics

ActiveCampaign

Email & CX Automation

Behavior-based lead nurturing, contact tagging systems, and sales pipeline automation triggers.

- Dynamic tag-based contact segmentation
- Omnichannel lead nurturing sequences
- Automated pipeline status shifts
- E-commerce & web tracking triggers

• OUR END-TO-END CRM MANAGEMENT SERVICES

1. CRM Setup & Architecture

Custom pipeline building, field creation, user permission roles, and stage definition tailored to your exact sales process.

2. Data Cleanse & Migration

Seamless data extraction, deduplication, field mapping, and zero-downtime migration between any CRM system.

3. Workflow Automation

Eliminating manual data entry through automated task creation, auto-assignment rules, and trigger-based email sequences.

4. Third-Party Integrations

Connecting your CRM to Gmail, Outlook, Calendly, WhatsApp, Stripe, Quickbooks, and custom webhooks via Zapier / Make.com.

5. Lead Scoring & Routing

Implementing engagement and demographic lead scoring to route high-intent leads to reps instantly.

6. Custom Reporting & KPIs

Real-time revenue dashboards, pipeline health reports, conversion funnel tracking, and team activity leaderboards.

• THIRD-PARTY INTEGRATION STACK (ZAPIER & MAKE)

We connect your CRM seamlessly with your existing software ecosystem to eliminate silos:

 Zapier Custom Zaps

 Make.com Complex Scenarios

 Calendly Auto-Sync

 WhatsApp Business API

 Stripe Billing Sync

 Instantly & Smartlead Cold Email

• CASE STUDIES & PROVEN RESULTS

"HubSpot & Salesforce Cleanse reduced lead response time from 4 hours to 90 seconds. Sales increased by 38%."

— SaaS Client (US Enterprise)

"Migrated 45,000 lead records from legacy spreadsheets to Zoho CRM with zero data loss or broken records."

— Logistics Director
